It turned out that about 200 school staffs had appealed the student against the condition of food poisoning on December 3rd at the elementary school of ○○ city. Among about 200 persons who appealed against nausea, diarrhea, etc., 60 persons were conveyed by the hospital and received the allowance. The food taken out to the supply of food on the same day is suspected, and the school side has announced it as under investigation now. The personnel of the health center visited the school and it brought the sample for the inspection of the meal offered with the check of the situation of cooking. School stops cooking of supply of food and changes it to lunch temporarily till the December 10th which a cause will decide.

Report about product "best corned beef" recovery of our company.

Food poisoning broke out at the elementary school of ○○ city on December 3. Into the food offered as supply of food, our products "best corned beef" are used by the school, and Clostridium welchii leading to food poisoning is discovered. Clostridium welchii becomes a stomachache and a cause of diarrhea. Since relevance with our products is suspected, We collect and inspect from this all (date-manufactured July 1, 2013 or subsequent ones) the product sold in August, 2013 and afterwards.

We apologize for making great worries and trouble to you, consumers, deeply. Therefore, if there is an applicable product although it is trouble truly, please send in C.O.D up to the following receiver's address. We investigate the cause soon, report as soon as possible, and we strive for recurrence prevention, then we ask all of you to give us understanding and cooperation.
